General Maintenance and Urgent Repairs Guide

The difference between Urgent and Non Urgent repairs

Non Urgent Repairs

For all general or non-urgent repairs, you should notify the agent in writing as soon as you become aware of the problem. The agent will then seek instructions from the rental provider and organise the required repairs. If you can provide a photo or video that would also be helpful in understanding the issue needing attention.

Urgent Repairs

Are defined by the law. Anything else is a non-urgent repair. A repair is non-urgent if the renter can continue to safely live in the property. Non-urgent repairs include things like a broken dishwasher or loose bathroom tiles. If a repair is not on the list below, it is a considered a non urgent or general repair. What you need to do :

Contact your managing agent / Rental Provider as soon as you're aware of the problem. Take detailed photos with time and date stamps and note any calls you have made. If you are unable to make contact with the agent/rental provider you may be able to organise the repairs yourself, up to a maximum of \$2,500.00 (including GST). This is only after you have made all reasonable attempts to contact the Agent/Rental Provider.

Should you decide to arrange the repairs please refer the list of trades/services below that are used by RT Edgar. You will be required to provide all documentation as proof of work including invoices, quotes or reports as failure to do so may affect your claim for reimbursement.
